

THE VIGORIAN EMPIRE

FOUNDED 2014

BUILDING HEARTLAND

A patron plan for the Vigorian Heartland
Estate and the Terra Vigorian network.

**CONTRIBUTION - ENTERPRISE - EDUCATION -
PRODUCTION - LEGACY**

ALL FOR ONE - AND ONE FOR ALL

THE PRIORITY

Heartland comes first

The Vigorian Empire was founded in 2014 to build resilient, educated and increasingly self-sustaining communities.

The first physical priority is The Vigorian Heartland Estate: the founding estate and land-based centre of the Terra Vigorian network.

Heartland is not merely land. It is the first physical foundation of the Vigorian future.

THE ESTATE

What Heartland will become

- **working farm and woodland**
- **residential community**
- **educational institute**
- **research and training centre**
- **microfarm and crop production**
- **healthy ageing and longevity hub**
- **Nomad Citizen camping and caravan**
- **enterprise, workshops and social life**

Heartland will not wait to become useful. It begins now through production, education

TERRA VIGORIAN MICROFARM

Heartland begins now

A controlled microfarm can begin
producing income and evidence
before the estate exists.

Lion's Mane

Turkey Tail

Reishi

Oyster

Microgreens

Produced responsibly & sold

Five funding engines

Patronage

Legacy Patrons fund productive allocations and the Heartland reserve.

Enterprise

Courses, publications, crops, products and services generate trading income.

Voluntary

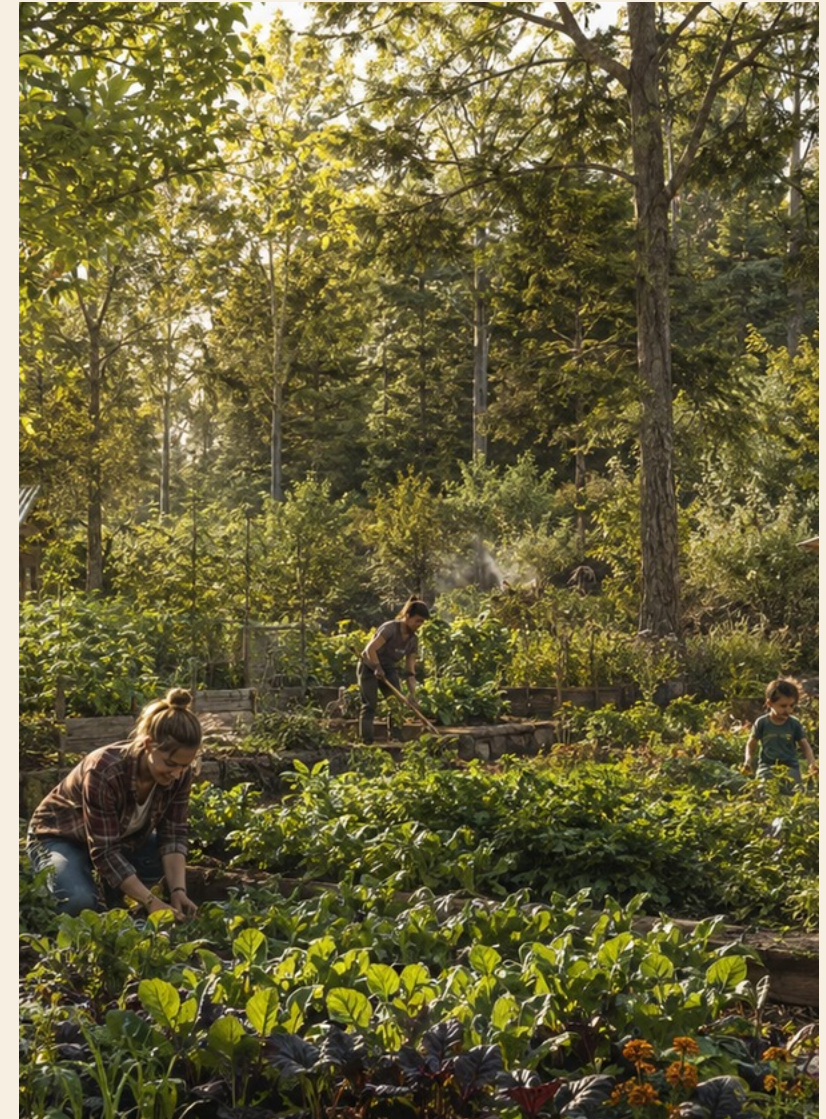

Citizens and supporters may give what they choose.

Human contribution

Skills, time, knowledge and effort become productive capacity.

Gifts and legacies

Assets, wills, property, land, tools and equipment may help build the patrimony.

THE VIGORIAN LEGACY PATRON

Lord & Lady Legacy Patron

A proposed £49.99 patron contribution helps build Heartland now and establishes a named productive allocation in the Terra Vigorian

£10 **Productive allocation**

£39.99 **Heartland development**

Clear, recorded and linked to a lasting legacy.

A named allocation that keeps contributing

- 1 Assigned**
A productive allocation is recorded in the patron's name.
- 2 Grown**
Crops are grown within the Microfarm.
- 3 Sold**
Harvests are sold to generate project income.
- 4 Renewed**
The unit is renewed and the cycle continues.

Your title is for today. Your legacy is for generations.

The crop, substrate and location may change. The named allocation continues for as long as the project continues.

Keeping a name alive

Each patron can be recorded with a legacy number, allocation, original crop, future Heartland location and long-term contribution history.

Legacy No.	HL-000184
Original Unit	Lion's Mane allocation
Future Estate	Heartland productive plot
Project Proceeds	Reinvested in perpetuity

Vigorian Academy of Practical Life Skills

Courses turn knowledge into personal resilience and project income. Citizens learn to survive in the world as it is, while helping build the world we want.

- **Mushroom cultivation**
- **Microgreens and food production**
- **Health and longevity**
- **Business and enterprise**
- **Personal finance**
- **Self-sufficiency**
- **Metacognition and critical thinking**
- **First aid and practical life skills**

Not everyone has money. Everyone may have value.

The project recognises skills, time, experience and effort as real forms of contribution.
A citizen may help through production, teaching, design, sales, administration, research, mentoring, maintenance or community support.

Time

Skill

Knowledge

Enterprise

Care

Service

Creativity

Money can accelerate the work. Human contribution makes the work

PROJECT DE' OCEANO

The ocean remains part of the vision

Heartland is the current priority because land-based production can help fund future maritime development. Supporters who wish to fund De' Oceano directly may designate their contributions accordingly.

**HEARTLAND BUILDS STRENGTH ON LAND.
DE' OCEANO TAKES THE VIGORIAN VISION TO SEA.**

Founder-led now. Protected for the future.

During the Founder Era, the project remains under the direction of the Founder Emperor while institutions, assets and traditions are established.

The long-term intention is to protect major Vigorian assets for future generations of citizens as

**The Emperor leads. The Patrimony
is protected. The citizens benefit.**

DEVELOPMENT ROUTE

Building in stages

1	Microfarm	Start producing now.
2	Courses	Educate and generate income.
3	Reserve	Build the Heartland capital fund.
4	Acquire	Purchase the first estate.
5	Develop	Create the community, institute and network.
6	Expand	Grow Terra Vigorian and De' Oceano.

THE VIGORIAN EMPIRE

FOUNDED 2014

Build the land. Build the people.

One person cannot build Heartland. Thousands of people contributing money, time, skill, enterprise and legacy can.

PROJECT TERRA VIGORIAN - THE VIGORIAN HEARTLAND ESTATE

ALL FOR ONE - AND ONE FOR ALL
